

Hadnall Parish Council

Following representation made by HPC to our local MP Helen Morgan, Mrs Morgan has written back requesting information is submitted to help tackle the damaging impact of flooding across North Shropshire.

A Parliamentary Inquiry, led by the Environmental Audit Committee, into Flood Resilience in England has now been launched, with a particular focus on the River Severn. Mrs Morgan has stated that this is a critical opportunity to ensure that our voices and experiences are heard, so we can press for the solutions our communities desperately need.

To gather evidence the Shrewsbury Flood Action Group is asking affected individuals to share their stories by answering four key questions which are listed below:

Separate to this there is a Hadnall Village flooding and sewage remediation meeting planned for 19:00hrs on Wednesday 15th January in Hadnall Village Hall.

Please complete the following and return to hadnallparish@gmail.com no later than Monday 20th January 2025.

Name.....

Address.....

Postcode.....

1. How has flooding impacted you? (How often have you been flooded, where did the water come from, and what was the disruption like?)

2. What support have you received, and was it sufficient?

3. What can be done to prevent and reduce flooding? Who should be responsible?

4. What can be done to prevent and reduce flooding? Who should be responsible?
